

SLC25A6 Rabbit pAb

Catalog No.: A15029

Basic Information

Observed MW

Calculated MW

33kDa

Category

Primary antibody

Applications

ELISA

Cross-Reactivity

Human

Background

This gene is a member of the mitochondrial carrier subfamily of solute carrier protein genes. The product of this gene functions as a gated pore that translocates ADP from the cytoplasm into the mitochondrial matrix and ATP from the mitochondrial matrix into the cytoplasm. The protein is implicated in the function of the permeability transition pore complex (PTPC), which regulates the release of mitochondrial products that induce apoptosis. The human genome contains several non-transcribed pseudogenes of this gene.

Recommended Dilutions

ELISA

Recommended starting concentration is 1 µg/mL. Please optimize the concentration based on your specific assay requirements.

Immunogen Information

Gene ID

293

Swiss Prot

P12236

Immunogen

Recombinant protein (or fragment). This information is considered to be commercially sensitive.

Synonyms

ANT; AAC3; ANT3; ANT 2; ANT 3; ANT3Y; SLC25A6

Product Information

Source

Rabbit

Isotype

IgG

Purification

Affinity purification

Storage

Store at -20°C. Avoid freeze / thaw cycles.

Buffer: PBS containing 50% glycerol, preserved with proclin300 or sodium azide (as specified on the Certificate of Analysis), pH 7.3.
