

NPPA Rabbit pAb

Catalog No.: A19328

Basic Information

Observed MW

Refer to figures

Calculated MW

16kDa

Category

Primary antibody

Applications

ELISA, IF/ICC

Cross-Reactivity

Mouse, Rat

Background

The protein encoded by this gene belongs to the natriuretic peptide family. Natriuretic peptides are implicated in the control of extracellular fluid volume and electrolyte homeostasis. This protein is synthesized as a large precursor (containing a signal peptide), which is processed to release a peptide from the N-terminus with similarity to vasoactive peptide, cardiodilatin, and another peptide from the C-terminus with natriuretic-diuretic activity. Mutations in this gene have been associated with atrial fibrillation familial type 6. This gene is located adjacent to another member of the natriuretic family of peptides on chromosome 1.

Recommended Dilutions

IF/ICC 1:50 - 1:200

Immunogen Information

Gene ID

4878

Swiss Prot

P01160

Immunogen

Recombinant fusion protein containing a sequence corresponding to amino acids 26-151 of human NPPA (NP_006154.1).

Synonyms

ANF; ANP; CDD; CDP; PND; ATFB6; ATRST2; CDD-ANF; NPPA

Product Information

Source

Rabbit

Isotype

IgG

Purification

Affinity purification

Storage

Store at -20°C. Avoid freeze / thaw cycles.

Buffer: PBS with 0.05% proclin300, 50% glycerol, pH7.3.
