

Phospho- δ -Catenin/p120 Catenin-S252 Rabbit pAb

Catalog No.: AP1078

Basic Information

Observed MW

Refer to figures

Calculated MW

108kDa

Category

Primary antibody

Applications

WB, ELISA

Cross-Reactivity

Human

Background

This gene encodes a member of the Armadillo protein family, which function in adhesion between cells and signal transduction. Multiple translation initiation codons and alternative splicing result in many different isoforms being translated. Not all of the full-length natures of the described transcript variants have been determined. Read-through transcription also exists between this gene and the neighboring upstream thioredoxin-related transmembrane protein 2 (TMX2) gene.

Recommended Dilutions

WB 1:500 - 1:2000

ELISA Recommended starting concentration is 1 μ g/mL. Please optimize the concentration based on your specific assay requirements.

Immunogen Information

Gene ID

1500

Swiss Prot

O60716

Immunogen

Synthetic peptide. This information is considered to be commercially sensitive.
