Rabbit anti-Human BD-1 mAb(DET)

Catalog No.: RMK0392

Basic Information

Catalog No.
RMK0392

Catagory
Elisa Antibody Kit

Application
Multiplex

Product Information

Ig Type
Rabbit IgG

Purification
Affinity purification

Endotoxin Level

Storage
Store at -20℃
Avoid repeated freeze-thaw cycles.

Formulation
Supplied as a 0.2um filtered solution in PBS,PH 7.4 containing Human BD-1 Antibody

Background

Defensins form a family of microbicidal and cytotoxic peptides made by neutrophils. Members of the defensin family are highly similar in protein sequence. This gene encodes defensin, beta 1, an antimicrobial peptide implicated in the resistance of epithelial surfaces to microbial colonization. This gene maps in close proximity to defensin family member, defensin, alpha 1 and has been implicated in the pathogenesis of cystic fibrosis.

Immunogen Information

Immunogen
Recombinant Human BD-1 Protein

Cross-Reactivity

/

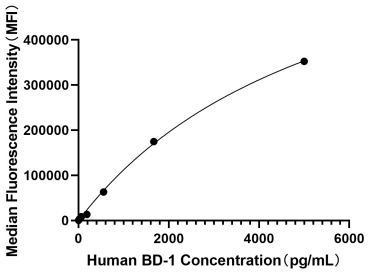

Assay Applications

Human BD-1 multiplex assay

	Recommended Concentration	Sample
Multiplex Capture	3-20ug/mL	Rabbit anti-Human BD-1 mAb(Cat. No.RM17924)
Multiplex Detection	0.017-2ug/mL	Rabbit anti-Human BD-1 mAb(Cat. No.RMK0392)
Standard	6.86-5000pg/mL	Recombinant Human BD-1 Protein

Validation Data
