

Recombinant Mouse TNFRSF6/FAS/CD95 Protein

Catalog No.: RP00737 Recombinant

Sequence Information

Species Gene ID Swiss ProtMouse 14102 P25446

Tags

C-6×His

Synonyms

Tumor necrosis factor receptor superfamily member 6; Apo-1 antigen; Apoptosis-mediatingsurface antigen FAS; FASLG receptor; CD95;Fas;TNFRSF6

Product Information

Source

Purification

HEK293 cells

≥ 95 % as determined by SDS-

PAGE.

Calculated MW Observed MW

17.4 kDa 25-35 kDa

Endotoxin

< 1 EU/µg of the protein by LAL method.

Formulation

Lyophilized from a 0.2 µm filtered solution of PBS,pH7.4.Contact us for customized product form or formulation.

Reconstitution

Centrifuge the tube before opening. Reconstitute to a concentration of 0.1-0.5 mg/mL in sterile distilled water. Avoid vortex or vigorously pipetting the protein. For long term storage, it is recommended to add a carrier protein or stablizer (e.g. 0.1% BSA, 5% HSA, 10% FBS or 5% Trehalose), and aliquot the reconstituted protein solution to minimize free-thaw cycles.

Background

Mouse Apoptosis-mediating surface antigen FAS (Fas) belongs to the death receptor subfamily of the TNFreceptor superfamily and is designated TNFRSF6. Mouse Fas contains 1 death domain and 3 TNFR-Cys repeats. It detected in various tissues including thymus, liver, lung, heart, and adult ovary. As a receptor for TNFSF6/FASLG, The adapter molecule FADD recruits caspase-8 to the activated receptor. The resulting death-inducing signaling complex (DISC) performs caspase-8 proteolytic activation which initiates the subsequent cascade of caspases mediating apoptosis. FAS-mediated apoptosis may have a role in the induction of peripheral tolerance, in the antigen-stimulated suicide of mature T-cells, or both.

Basic Information

Description

Recombinant Mouse TNFRSF6/FAS/CD95 Protein is produced by Human Cells expression system. The target protein is expressed with sequence (Gln22-Arg169) of Mouse TNFRSF6/FAS/CD95 (Accession #P25446) fused with a $6\times$ His tag at the Cterminus.

Bio-Activity

Shipping

The product is shipped at ambient temperature. Upon receipt, store it immediately at the temperature recommended below.

Storage

Store at -20°C. Store the lyophilized protein at -20°C to -80 °C up to 1 year from the date of receipt.

After reconstitution, the protein solution is stable at -20°C for 3 months, at 2-8°C for up to 1 week.

Avoid repeated freeze/thaw cycles.

Operational Notes

For your safety and health, please wear a lab coat and disposable gloves for handling.

Validation Data

Recombinant Mouse TNFRSF6/FAS/CD95 Protein was determined by SDS-PAGE under reducing conditions with Coomassie Blue.
