

Recombinant Human IFN-gamma Protein

Catalog No.: RP01038 Recombinant 6 Publications

Sequence Information

Species **Gene ID** **Swiss Prot**
 Human 3458 P01579-1

Tags
 No tag

Synonyms
 IFNG;IFG;IFI

Product Information

Source **Purification**
E. coli $\geq 95\%$ as
 determined by SDS-
 PAGE; $\geq 95\%$ as
 determined by
 HPLC.

Calculated MW **Observed MW**
 16.78 kDa 17 kDa

Endotoxin
 < 0.1 EU/ μ g of the protein by LAL
 method.

Formulation
 Lyophilized from a 0.22 μ m filtered
 solution of PBS, pH 7.4. Contact us for
 customized product form or formulation.

Reconstitution
 Centrifuge the vial before opening.
 Reconstitute to a concentration of
 0.1-0.5 mg/mL in sterile distilled water.
 Avoid vortex or vigorously pipetting the
 protein. For long term storage, it is
 recommended to add a carrier protein or
 stabilizer (e.g. 0.1% BSA, 5% HSA, 10%
 FBS or 5% Trehalose), and aliquot the
 reconstituted protein solution to
 minimize freeze/thaw cycles.

Background

Interferon-gamma (IFN-gamma) is a secreted protein which belongs to the type II interferon family. Recombinant Human IFN-gamma is a 16.8 kDa protein containing 143 amino acid residues. IFN-gamma is produced by a variety of immune cells under inflammatory conditions, notably by T cells and NK cells. IFN-gamma, in addition to having antiviral activity, has important immunoregulatory functions. Interferon-gamma is a central regulator of the immune response and signals via the Janus Activated Kinase (JAK)-Signal Transducer and Activator of Transcription (STAT) pathway.

Basic Information

Description

Recombinant Human IFN-gamma Protein is produced by *E. coli* expression system. The target protein is expressed with sequence (Gln24-Gln166) of human Interferon Gamma (Accession #NP_000610.2).

Bio-Activity

1. Measured by its binding ability in a functional ELISA. Immobilized Human FNGR1/CD119 at 1 μ g/mL (100 μ L/well) can bind Human IFNG with a linear range of 0.98-1.97 ng/mL. |2. Measured in a cytotoxicity assay using HT-29 cells. The ED₅₀ for this effect is 0.74-2.96 ng/mL, corresponding to a specific activity of 3.38×10^5 ~ 1.35×10^6 units/mg. |3. Flow cytometry: 1×10^6 A549 cells treated with IFN- γ (RP01038, 1 ng/mL) were surface-stained with PE Rabbit IgG isotype control (A24172, 5 μ L/Test, left) or PE Rabbit anti-Human PD-L1/CD274 mAb (A26692, 5 μ L/Test, right). |4. Flow cytometry: 1×10^6 NCI-H460 cells treated with IFN- γ (RP01038, 1 ng/mL) were surface-stained with PE Rabbit IgG isotype control (A24172, 5 μ L/Test, left) or PE Rabbit anti-Human PD-L1/CD274 mAb (A26692, 5 μ L/Test, right)

Shipping

The product is shipped at ambient temperature. Upon receipt, store it immediately at the temperature recommended below.

Storage

Store at -20°C. Store the lyophilized protein at -20°C to -80 °C up to 1 year from the date of receipt.
 After reconstitution, the protein solution is stable at -20°C for 3 months, at 2-8°C for up to 1 week.
 Avoid repeated freeze/thaw cycles.

Operational Notes

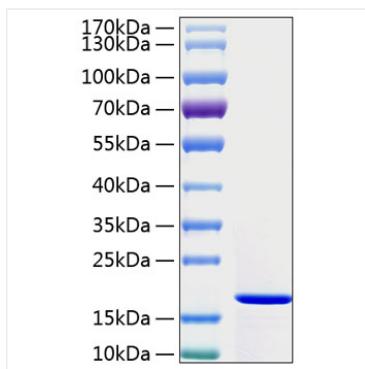

For your safety and health, please wear a lab coat and disposable gloves for handling.

Validation Data

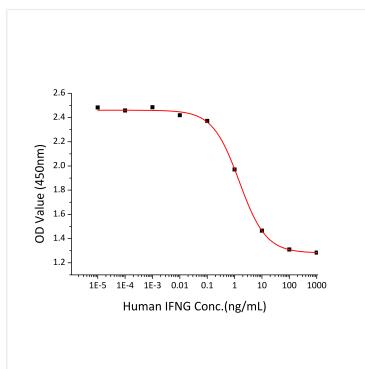

Recombinant Human IFN-gamma Protein was determined by SDS-PAGE under reducing conditions with Coomassie Blue.

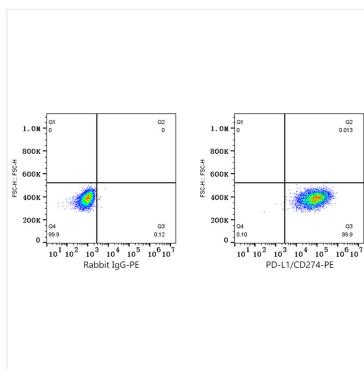

The purity of Recombinant Human IFN-gamma Protein is greater than 95% as determined by SEC-HPLC.

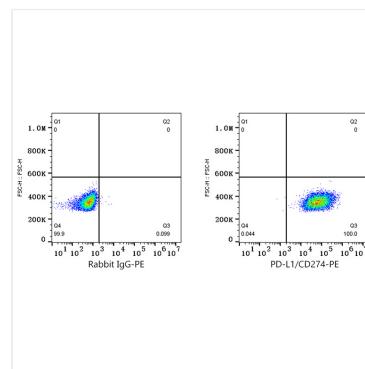

Immobilized Human FNGR1/CD119 at 1 μ g/mL (100 μ L/well) can bind Human IFNG with a linear range of 0.98-1.97ng/mL.

Recombinant Human IFN-gamma induces cytotoxicity in the HT-29 cells. The ED_{50} for this effect is 0.74-2.96 ng/mL, corresponding to a specific activity of $3.38 \times 10^5 \sim 1.35 \times 10^6$ units/mg.

Flow cytometry: 1×10^6 A549 cells treated with IFN- γ (RP01038, 1 ng/mL) were surface-stained with PE Rabbit IgG isotype control (A24172, 5 μ L/Test, left) or PE Rabbit anti-Human PD-L1/CD274 mAb (A26692, 5 μ L/Test, right)

Flow cytometry: 1×10^6 NCI-H460 cells treated with IFN- γ (RP01038, 1 ng/mL) were surface-stained with PE Rabbit IgG isotype control (A24172, 5 μ L/Test, left) or PE Rabbit anti-Human PD-L1/CD274 mAb (A26692, 5 μ L/Test, right)
