

Catalog No.: RP01102 **Recombinant**

Species	Gene ID	Swiss Prot
Human	53833	O6UXL0

C-Fc

Synonyms
IL20RB;DIRS1;FNDC6;IL-20R2

Source	Purification
HEK293 cells	≥ 95 % as determined by SDS-PAGE

49.6 kDa 60-85 kDa

< 1 EU/μg of the protein by LAL method.

Supplied as a 0.22 µm filtered solution of PBS, pH 7.4. Contact us for customized product form or formulation.

Centrifuge the tube before opening. Reconstitute to a concentration of 0.1-0.5 mg/mL in sterile distilled water. Avoid vortex or vigorously pipetting the protein. For long term storage, it is recommended to add a carrier protein or stabilizer (e.g. 0.1% BSA, 5% HSA, 10% FBS or 5% Trehalose), and aliquot the reconstituted protein solution to minimize free-thaw cycles.

IL20RB and IL20RA (MIM 605620) form a heterodimeric receptor for interleukin-20 (IL20; MIM 605619) (Blumberg et al., 2001 [PubMed 11163236]).

Recombinant Human IL-20RB Protein is produced by Mammalian expression system. The target protein is expressed with sequence (Asp30-Ala230) of human IL-20RB (Accession #O6UXL0) fused with an Fc tag at the C-terminus.

Store at -70°C. This product is stable at $\leq -70^{\circ}\text{C}$ for up to 1 year from the date of receipt. For optimal storage, aliquot into smaller quantities after centrifugation and store at recommended temperature. Avoid repeated freeze-thaw cycles.

Validation Data

Recombinant Human IL-20RB Protein was determined by SDS-PAGE under reducing conditions with Coomassie Blue.
