Recombinant Human FGF-3 Protein

ABclonal www.abclonal.com

Catalog No.: RP01404 Recombinant

Sequence Information

Species Gene ID **Swiss Prot** Human 2248 P11487

Tags

No tag

Synonyms FGF3;HBGF-3;INT2

Product Information

Source **Purification** E. coli ≥ 95 % as

determined by SDS-PAGE.

Calculated MW Observed MW

21.05 kDa 24 kDa

Endotoxin

Please contact us for more information.

Formulation

Lyophilized from a 0.22 µm filtered solution of 25mM Tris,1M NaCl,1mM TCEP,pH 8.0

Reconstitution

Centrifuge the vial before opening. Reconstitute to a concentration of 0.1-0.5 mg/mL in sterile distilled water. Avoid vortex or vigorously pipetting the protein. For long term storage, it is recommended to add a carrier protein or stablizer (e.g. 0.1% BSA, 5% HSA, 10% FBS or 5% Trehalose), and aliquot the reconstituted protein solution to minimize free-thaw cycles.

Background

Fibroblast Growth Factor 3 (FGF-3) belongs to the large FGF family which has at least 23 members. All FGF family members are heparin-binding growth factors with a core 120 amino acid (aa) FGF domain that allows for a common tertiary structure. FGFs are expressed during embryonic development and in restricted adult tissues. They act on cells of mesodermal and neuroectodermal origin to regulate diverse physiologic functions including angiogenesis, cell growth, pattern formation, embryonic development, metabolic regulation, cell migration, neurotrophic effects and tissue repair. Signaling receptors for FGFs are type I transmembrane receptor tyrosine kinases belonging to the Ig superfamily. Four distinct but related classes of FGF receptors, FGF R1, 2, 3, and 4, exist. Through alternative splicing, multiple isoforms for FGF R1, 2 and 3, with distinct ligand recognition profiles, are also generated.

Basic Information

Description

Recombinant Human FGF-3 Protein is produced by E. coli expression system. The target protein is expressed with sequence (Asp28-Arg212 \(\text{N-Met} \(\text{\sq} \)) of human FGF-3 (Accession #NP 005238.1) fused with no additional amino acid.

Bio-Activity

Shipping

The product is shipped at ambient temperature. Upon receipt, store it immediately at the temperature recommended below.

Storage

Store at -20°C. Store the lyophilized protein at -20°C to -80 °C up to 1 year from the date of receipt.

After reconstitution, the protein solution is stable at -20°C for 3 months, at 2-8°C for up to 1 week.

Avoid repeated freeze/thaw cycles.

Operational Notes

For your safety and health, please wear a lab coat and disposable gloves for handling.

Validation Data

Recombinant Human FGF-3 Protein was determined by SDS-PAGE under reducing conditions with Coomassie Blue.
