

Recombinant Human TNFSF5/CD40 ligand/CD154 Protein

Catalog No.: RP01733 Recombinant

Sequence Information

Species Gene ID Swiss Prot Human 959 P29965

Tags N-6His

Synonyms

IGM; IMD3; TRAP; gp39; CD154; CD40L; HIGM1; T-BAM; TNFSF5; hCD40L CD40LG

Product Information

Source Purification

HEK293 cells ≥ 95 % as determined by SDS-

PAGE.

Calculated MW Observed MW

16.64 kDa 20-27 kDa

Endotoxin

 $< 0.1 \; \text{EU/}\mu\text{g}$ of the protein by LAL method.

Formulation

Lyophilized from a 0.22 µm filtered solution of PBS, pH 7.4.

Reconstitution

Centrifuge the vial before opening. Reconstitute to a concentration of 0.1-0.5 mg/mL in sterile distilled water. Avoid vortex or vigorously pipetting the protein. For long term storage, it is recommended to add a carrier protein or stablizer (e.g. 0.1% BSA, 5% HSA, 10% FBS or 5% Trehalose), and aliquot the reconstituted protein solution to minimize free-thaw cycles.

Background

CD154, also known as CD40 ligand or CD40L, is a member of the TNF superfamily. While CD154 was originally found on T cell surface, its expression has since been found on a wide variety of cells, including platelets, mast cells, macrophages and NK cells. CD154's ability is achieved through binding to the CD40 on antigen-presenting cells (APC). In the macrophage cells, the primary signal for activation is IFN- γ from Th1 type CD4 T cells. The secondary signal is CD40L on the T cell, which interacting with the CD40 molecules, helping increase the level of activation.

Basic Information

Description

Active Recombinant Human CD40-L/CD40L/TNFSF5/TRAP/CD40LG Protein is produced by HEK293 cells expression system. The target protein is expressed with sequence (Gly116-Leu261) of human CD40-L/CD40L/TNFSF5/TRAP/CD40LG(Accession #NP 000065.1) fused with and a 6×His tag at the N-terminus.

Bio-Activity

Measured by its binding ability in a functional ELISA.Immobilized Human CD40L (Catalog: RP01733) at 5 μ g/mL (100 μ L/well) can bind Human CD40 (Catalog: RP01218) with a linear range of 0.005-0.5 μ g/mL.

Shipping

The product is shipped at ambient temperature. Upon receipt, store it immediately at the temperature recommended below.

Storage

Store at -20°C. Store the lyophilized protein at -20°C to -80 °C up to 1 year from the date of receipt.

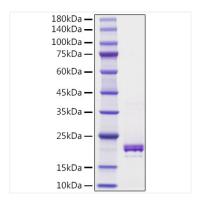

After reconstitution, the protein solution is stable at -20°C for 3 months, at 2-8°C for up to 1 week.

Avoid repeated freeze/thaw cycles.

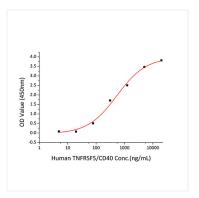

Operational Notes

For your safety and health, please wear a lab coat and disposable gloves for handling.

Validation Data

Recombinant Human TNFSF5/CD40 ligand/CD154 Protein was determined by SDS-PAGE under reducing conditions with Coomassie Blue.

Immobilized Human CD40L (Catalog: RP01733) at 5 μ g/mL (100 μ L/well) can bind Human CD40 (Catalog: RP01218) with a linear range of 0.005-0.5 μ g/mL.
