

Recombinant Human Angiopoietin-like 4/ANGPTL4(166-406) Protein

Catalog No.: RP02179 Recombinant 1 Publications

Swiss Prot

O9BY76

Sequence Information

Background

SpeciesGene IDHuman51129

Tags

N-His

Synonyms

ANGPTL4;ARP4;FIAF;HARP;HFARP;NL2;PG AR;TGQTL;UNQ171;pp1158

Product Information

Source	Purification
HEK293 cells	≥ 95 % as
	determined by SDS- PAGE.

Calculated MWObserved MW27.92 kDa32-38 kDa

Endotoxin

< 0.1 EU/µg of the protein by LAL method.

Formulation

Lyophilized from a 0.2 µm filtered solution of PBS, pH 7.4.Contact us for customized product form or formulation.

Reconstitution

Centrifuge the tube before opening. Reconstitute to a concentration of 0.1-0.5 mg/mL in sterile distilled water. Avoid vortex or vigorously pipetting the protein. For long term storage, it is recommended to add a carrier protein or stablizer (e.g. 0.1% BSA, 5% HSA, 10% FBS or 5% Trehalose), and aliquot the reconstituted protein solution to minimize free-thaw cycles.

fibrinogen C-terminal domain. The protein may act as a regulator of angiogenesis and modulate tumorigenesis. It inhibits proliferation, migration, and tubule formation of endothelial cells and reduces vascular leakage. ANGPTL4 may exert a protective function on endothelial cells through an endocrine action. It is directly involved in regulating glucose homeostasis, lipid metabolism, and insulin sensitivity (By similarity). In response to hypoxia, the unprocessed form of the protein accumulates in the subendothelial extracellular matrix (ECM). The matrix-associated and immobilized unprocessed form limits the formation of actin stress fibers and focal contacts in the adhering endothelial cells and inhibits their adhesion. It also decreases motility of endothelial cells and inhibits the sprouting and tube formation.

Angiopoietin-related protein 4 [] ANGPTL4 [] is a secreted protein and contains 1

Basic Information

Description

Recombinant Human Angiopoietin-like 4/ANGPTL4(166-406) Protein is produced by Mammalian expression system. The target protein is expressed with sequence (Pro166-Ser406) of human ANGPTL4 (Accession #Q9BY76) fused with a 6xHis tag at the N-terminus.

Bio-Activity

Storage

Store at -20°C. Store the lyophilized protein at -20°C to -80 °C up to 1 year from the date of receipt.

After reconstitution, the protein solution is stable at -20°C for 3 months, at 2-8°C for up to 1 week.

Avoid repeated freeze/thaw cycles.

Recombinant Human Angiopoietin-like 4/ANGPTL4(166-406) Protein was determined by SDS-PAGE under reducing conditions with Coomassie Blue.
