

# **Biotinylated Recombinant Human IL-17F Protein**

Catalog No.: RP02417B Recombinant

## **Sequence Information**

Species Gene ID Swiss Prot Human 112744 096PD4

**Tags** C-His&Avi

**Synonyms** 

IL17F;CANDF6;IL-17F;ML-1;ML1

## **Product Information**

SourcePurificationHEK293 cells≥ 95 % as

determined by Tris-Bis PAGE.

Calculated MW Observed MW

17.5, 14.9 kDa 23-28 kDa

#### **Endotoxin**

< 1 EU/µg of the protein by LAL method.

#### **Formulation**

Lyophilized from a 0.22  $\mu$ m filtered solution of PBS, pH 7.4.

#### Reconstitution

Centrifuge the tube before opening. Reconstitute to a concentration of 0.1-0.5 mg/mL in sterile distilled water. Avoid vortex or vigorously pipetting the protein. For long term storage, it is recommended to add a carrier protein or stablizer (e.g. 0.1% BSA, 5% HSA, 10% FBS or 5% Trehalose), and aliquot the reconstituted protein solution to minimize free-thaw cycles.

## **Background**

The Interleukin 17 (IL-17) family proteins, comprising six members (IL-17A through IL-17F), are secreted, structurally related proteins that share a conserved cystine-knot fold near the C-terminus, but have considerable sequence divergence at the N-terminus.IL-17F is ligand for IL17RA and IL17RC. The heterodimer formed by IL17A and IL17F is a ligand for the heterodimeric complex formed by IL17RA and IL17RC. Involved in stimulating the production of other cytokines such as IL6, IL8 and CSF2, and in regulation of cartilage matrix turnover.

#### **Basic Information**

#### Description

Biotinylated Recombinant Human IL-17F Protein is produced by Expi293 expression system. The target protein is expressed with sequence (Arg31-Gln163) of Human IL-17F fused with a His tag and Avi tag at the C-terminal.

#### **Bio-Activity**

#### Shipping

The product is shipped at ambient temperature. Upon receipt, store it immediately at the temperature recommended below.

#### Storage

Store at -20°C. Store the lyophilized protein at -20°C to -80°C up to 1 year from the date of receipt.

After reconstitution, the protein solution is stable at -20  $^{\circ}$ C for 3 months, at 2-8  $^{\circ}$ C for up to 1 week.

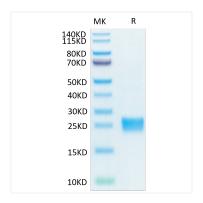

Avoid repeated freeze/thaw cycles.

## **Operational Notes**

For your safety and health, please wear a lab coat and disposable gloves for handling.

<sup>\*</sup> ODODODODODODODO

## **Validation Data**

Biotinylated Recombinant Human IL-17F Protein was determined by Tris-Bis PAGE under reducing conditions.
